

NATERIAL

OUR CONVICTIONS

At Naterial, we think that the garden, the terrace and the balcony are natural extensions of the house. They are even an integral part of the house offering spaces to be arranged, volumes to decorate, spaces to live.

A meal with friends, a reading break in a shaded area, a walk on the lane to the rear of the garden, a football game with the children,... Outside as much as inside, beautiful moments are invented.

Naterial is the brand to equip, fit out, store and decorate the balcony, the terrace, the garden.

“ To live well, you must already dream well ”

Naterial is the exterior Architect brand

It designs and builds outdoor spaces and offers solutions to help everyone live outside, blossom and enjoy the pleasures of life.

THE STYLES

Varied and trendy styles to suit all tastes.

Our styles are oriented to find design, functionality and quality materials, expressed in each piece of furniture in our collection. We draw on our French design heritage to create timeless styles.

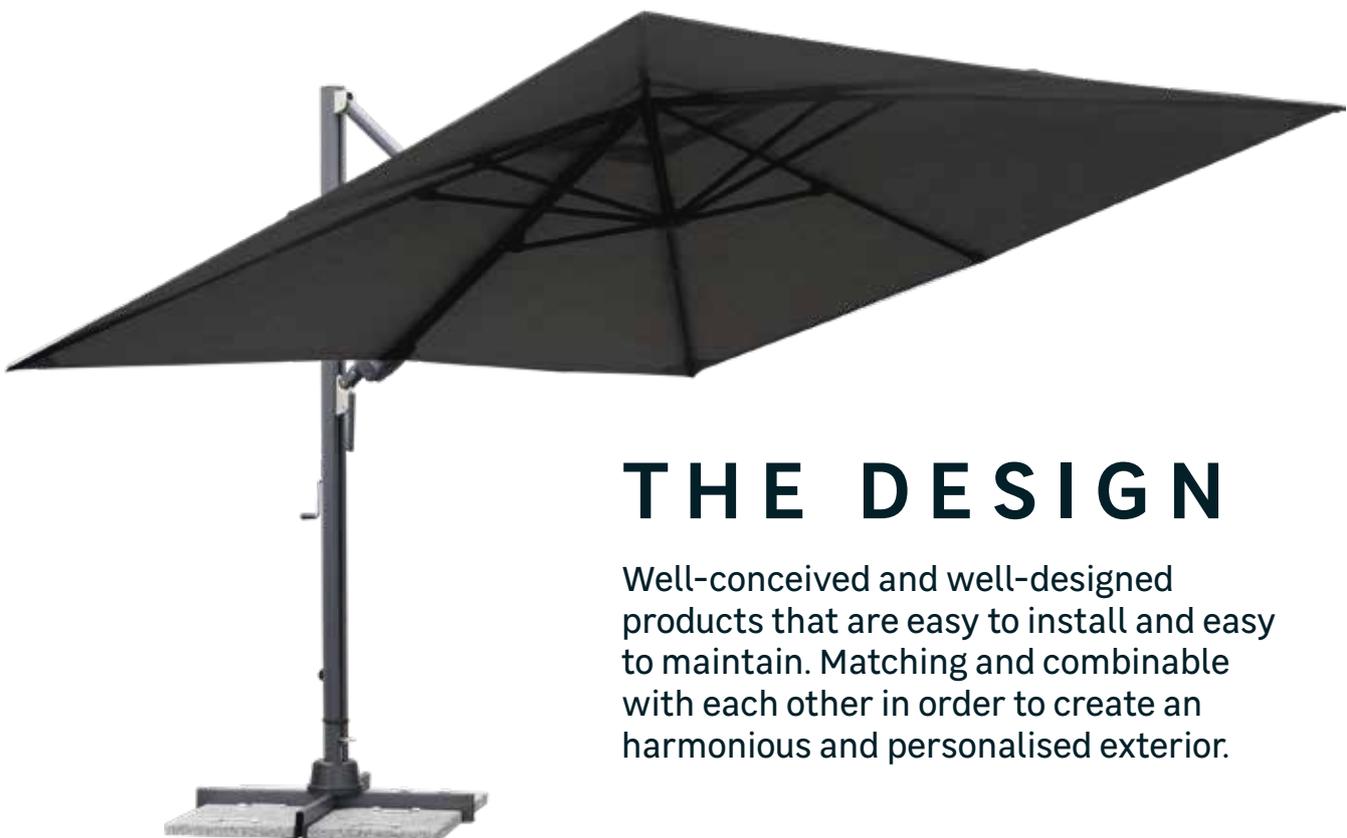

— LE CHOIX

A wide choice and an excellent value for money built in a spirit of trust.

SUSTAINABILITY

Sustainable products, more environmentally friendly, made from good materials that stay beautiful, season after season.

THE DESIGN

Well-conceived and well-designed products that are easy to install and easy to maintain. Matching and combinable with each other in order to create an harmonious and personalised exterior.

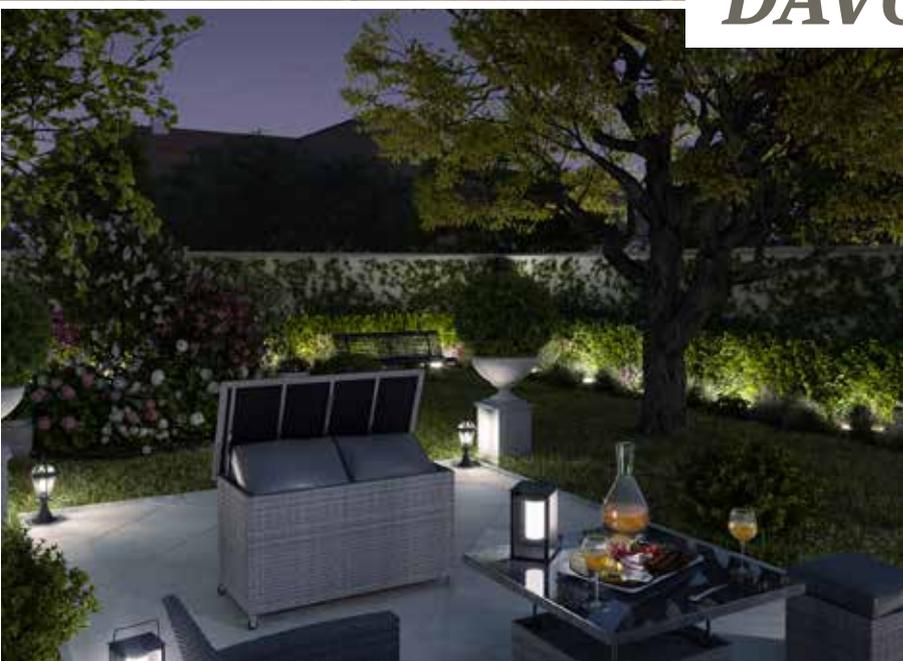

A photograph of an outdoor patio area. In the background, there is a stone wall with a large arched window. The patio is furnished with modern outdoor furniture, including a wicker chair, a sofa with a green cushion, and a coffee table. The scene is framed by a white border, and the text "CLASSIC STYLE" is overlaid in the center.
